TEAM M7

Camp BizSmart is the premiere business & entrepreneur academy where students 11-15 work on "hot topic" real business problems sponsored by cool & award winning companies. Past sponsors include: Ekso bionics, mOasis, Neurosky, HopeLab, d.light design & Hydrovolts, Serious Materials, Valence Energy, Tigo, & Revolution Foods. Executives from Microsoft, Google, Cisco, WAGIC, Garage Technology Ventures, the Keiretsu Forum, Alliance of Chief Executives, piggyback & more, mentor the students on what makes a business idea successful.

Student teams learn the skills necessary to solve business problems & defend their solution to executives & investors at BizPlan & Product Design Challenge Competitions held at Microsoft SiliconValley.

Founders Dr. Mike Gibbs, & Peggy Gibbs oversee operations & program development to deliver high quality, unique, engaging programs. To sponsor a biz case or be a mentor, contact: peggy.gibbs@bizsmartglobal.com, or 408.395.1937
